Danzante Bay at the Islands of Loreto is a 4,447 acre master planned resort and residential community on a crescent beach where the towering Sierra la Giganta Mountains descend into the Sea of Cortez. Just 35 minute drive from the Loreto International Airport. The sea and five pristine, undeveloped islands are part of the Loreto National Marine Park—over 800 square miles of protected marine wilderness.

El Cardon and Canyon are two private, gated residential communities within Danzante Bay. The four villa models boast all the luxury finishes and materials you have come to expect from a home in Mexico, like floor-to-ceiling windows that bring the sea and mountains inside, open floor plans, covered outdoor living areas, pool and spa and top of the line finishes.
